WORKING WITH ARTISTS

We CAN Learn From Our Past!

In photography, as in any field, we learn from our past. We learn about various cultures from photography. We also learn about ourselves, our medium, our specific genre that we work in as artists, and where we fit within that genre.

We can also sometimes see where the field of photography is headed, and even guide it a little to where WE want it. We have the power to do this, once we have learned of our past. Using this as a guiding light you will see more classes coming from WWA. These classes will contribute to the learning of the history of the photographic arts. You will also see all of our instructors using more images from the history of photography as a teaching tool. So stay tuned.

Also, please note that in 2009 we have a whopping 18 NEW classes
Schedule. www.workingwithartists.org
